

Local Fitness Champion

People can't say enough about Charlie Crangle and Kim Blommel. Newly retired after 20 years of teaching, Kim and Charlie embody the Healthy Futures initiative to inspire and empower Alaska youth to develop more physically active lifestyles. This husband and wife team are the real deal that do the real thing! Helping kids discover the power of fitness and finding success on their own terms, beginning classes with jumping jacks, leading a sea of blue coats in the rain to prepare for the Exit Glacier race - *to their students they are GIANTS!*

Congratulations Kim and Charlie! Thank you for the long lasting rewards that you have given to your students. Through your encouragement and caring you have changed countless lives for the better.
